MBC AIR-KNIFE SYSTEM

As a part of our Engineered Cleaning, Conditioning and Finishing Systems product line, we are pleased to offer a custom-engineered Air-Knife System for various industrial applications.

Our MBC Air-Knife Systems are custom engineered to replace various wringer roll, chem-treat, and particulate removal applications in your process line.

The MBC Air-Knife System can also incorporate drying applications in conjunction with air evacuation and capture systems.

Maryland Brush Company focuses its research and development, engineered solutions and applications support services on brushes and equipment – critical in niche industries.

Contact the Maryland Brush Company for more information and technical assistance.
